

## Product Presentation

## Application

To determine the pilling and fuzzing characteristics of textile fabrics. Precision high-speed impeller for agitating the test specimens against cork lining for a pre-determined time controlled by a timer and audible alarm. Compressed air is also injected into the chamber to assist in the tumbling action. Laboratory standard compressed air supply required.

## Feature

- Intelligent interface to guide the user.
- Flexible system maximizes throughput and minimizes downtime.
- Stable propeller and rotation speed.

## Key Specification

Test chambers	4 Test chambers
Rotating speed	1200rpm
Tumble diameter	153mm
Specimen	105 x105mm
Power supply	AC220V 50/60Hz
Dimensions	66x40x55cm (L×W×H)
Weight	75kg

## Standards

ASTM D3512, DIN 53867, JIS L1076

## Accessories

Standards accessories	1pc	Power line
Optional accessories	Optional	Cotton sliver
	Optional	Cork lining
	Optional	Standards photograph
	Optional	Air compressor
	Optional	Cleaner
